Career Objective

Aspiring Data Analyst with hands-on experience in SQL, Power BI, Excel, and Python. Skilled in analyzing data, building interactive dashboards, and generating actionable business insights. Seeking an opportunity to apply my analytical skills in a real-world environment.

Skills

- SQL (Joins, Aggregations, Data Analysis)
- Power BI (Dashboards, Data Modeling, Visualization)
- Excel (Pivot Tables, Data Cleaning, Analysis)
- Python (Basics, Pandas, NumPy for data analysis)

Projects

- Sales Performance Analysis Dashboard

- Analyzed sales data to track revenue, profit, and regional performance
- Built interactive Power BI dashboard to identify trends and top-performing products
- Identified seasonal patterns to support business decision-making
- Used SQL for data extraction and analysis <https://github.com/siva-1941/Sales-Performance-Analysis>

- Customer Analysis Dashboard (RFM Segmentation)

- Performed RFM segmentation to identify high-value customers
- Analyzed customer behavior, distribution, and profitability
- Provided insights for targeted marketing strategies
- Used SQL and Excel for data preparation <https://github.com/siva-1941/customer-analysis-dashboard>

Education

- B.Sc (Computer Science), Government Degree College, Nagari (2023)
- MCA (Pursuing), 2024 – Present

Certifications

- Data Science Bootcamp – OdinSchool (2025)

Strengths

- Strong analytical thinking
- Problem-solving mindset
- Quick learner and adaptable
